RELATED PROJECTS

IDX Stock Screener — Data Accuracy Audit

Ongoing

Personal project | github.com/suryalionael/idx-stock-scanner-agent

- Audited the data pipeline of a self-built market-scanning tool before offering it to paid users, found broker-activity figures were undisclosed mock data, and replaced them with verified figures from a live market-data API with a staleness check

Delta Harvest Festival — Event Collateral Coordination

Ongoing

Delta, Ontario

- Coordinate directly with the Delta Mill Society to produce print and digital event materials, treating the festival's website as the single source of truth and sequencing each asset so it's produced only after the lead asset is approved

FloodCast Jakarta — Flood Risk Prediction Model

Ongoing

Dicoding AI Impact Challenge 2026 | github.com/suryalionael/Datathon-Dicoding2026-FloodRisk

- Built a multi-horizon flood-risk prediction model for Jakarta using an XGBoost ensemble with Optuna tuning and SHAP explainability, then built an interactive map dashboard turning the output into location-by-location risk reporting for non-technical stakeholders
